

Francis Tuttle Technology Center Technology Use Agreement

Use of the district's networks, computers, software, and Internet access is considered a privilege, not a right. Inappropriate use may result in school disciplinary action which could include revocation of user privileges, suspension, and/or dismissal from Francis Tuttle.

Francis Tuttle Acceptable Use of Technology – Use of the district's technology (networks, computers, software, and internet resources) must only be in support of educational objectives and/or district business. Any individual who uses the district's resources to access the Internet or engage in any electronic or digital communication is required to participate in the district's education efforts (undertaken pursuant to the Children's Internet Protection Act) and comply with the district's technology policies.

Francis Tuttle Unacceptable Use of Technology – Unacceptable use of the district's technology (networks, computers, software, and internet resources) includes sending or receiving any material in violation of any federal, state, or local regulations. This includes, but is not limited to, copyrighted material, threatening material, obscene material, pornographic material, and/or material protected by trade secret.

District technology may not be used for personal gain; advertising products; promoting political points of view; or to vandalize, damage, disable, or disrupt the property of the district, another individual, organization, or the network.

Expressly prohibited activities involving district technology include, but are not limited to:
